

SPECIFICATION AMENDMENTS

Please replace the paragraph at lines 5-11 of page 1 with the following amended paragraph:

a1 This application claims the benefit of U. S. Provisional Application entitled "Web Server Architecture", No. 60/156,305, filed September 24, 1999, and U. S. Provisional Application entitled "Web Server Architecture", No. 60/155,711, filed September 24, 1999. This application is also a continuation-in-part of U.S. Patent Application entitled "Mechanism for Enabling Customized Session Managers to Interact with a Network Server", Serial No. 09/524,775 ~~not yet assigned~~, filed on March 14, 2000. The entire contents of these prior applications are hereby incorporated by reference.

Please replace the paragraph at lines 1-5 of page 2 with the following amended paragraph:

a2 ~~previous request, even if the requests are from the same client, and even if the requests have some common nexus.~~ For simple applications in which every task that needs to be performed can be carried out in a single roundtrip, ~~this~~ statelessness is not a problem. However, for exchanges (such as transactions) that require multiple roundtrips, the lack of state presents a significant impediment.
